

Flat tinned braid

Filoform flat tinned braid is used for making earth connections in cable joints which provide a fault current path across shielded cable joints. In case of a Paper Insulated Lead Sheath Cable (PILC) the flat tinned braid can be connected on to the lead with use of a Filoform constant force spring. For making sustainable earth connections in cable joints For grounding high-voltage joints, terminations and cables

Features

- Tinned copper wires
- Flexible
- Corrosion resistant
- Suitable for indoor and outdoor use
- Other sizes available on request

Specifications

Nominal mm ²	Nominal dimensions	Current rating amps
10mm ²	15mm x 1,5mm	90
25mm ²	26mm x 1,6mm	150
35mm ²	25mm x 2,5mm	200
